

ENVIRONMENTAL POLICY

Rooney Group Limited recognise environmental management as one of its highest corporate priorities and as a key determinant to sustainable development. Rooney Group will establish policies, programmes and practices for conducting operations in an environmentally sound manner.

In its commitment towards environmental management Rooney Group will:

- Integrate its environmental policies and procedures fully into all business activities as a critical element.
- Promote and encourage the adoption of these principals by sub/contractors acting on behalf of Rooney Group.
- Continually improve its environmental performance, taking into account technology advances, current scientific understanding, customer and community needs and legal obligations.
- Develop, implement and maintain emergency preparedness plans where significant hazards exist including consideration with relevant authorities and the local community.
- Educate, train and promote to employees to work in an environmental responsible manner.
- Contribute to the transfer of environmental advances the company might make throughout the industry and government agencies.
- Complete environmental assessments for aspects and impacts of all new activities that the company may undertake.
- Foster openness and dialogue with both employees and the public, encouraging them to respond with their concerns or improvement ideas within the scope of the company's operations.
- Promote, develop and design services, facilities, equipment and work practices that have the less environmental impact.
- Maintain a set of environmental objectives and targets that are monitored through the company's management review process.
- Take into account the efficient use of energy and materials, the sustainable use of renewable resources, the safe and responsible disposal of waste thereby minimising serious or irreversible environmental degradation.
- Comply with all environmental legislation, standards and contract requirements that are applicable to the company's operation.
